## HEARD SPRINGFIELD SPEAKER

Eastern Connecticut Development Committee Listens to Practical Address.

The Eastern Connecticut Development Committee, comprising business men from New London, Norwich, Danvers, Putnam and this city, met at the local Board of Trade rooms Wednesday noon at 12:15. Lunch was enjoyed at the Johnson House at 12:30. At 1:30 at the Board of Trade rooms, John A. Schenck of Springfield, Mass., secretary of the Hampden County Improvement League, addressed the meeting.

Mr. Schenck described the agricultural and industrial conditions in the east and especially in New England where he said the loss in population in the agricultural communities through migration to the cities had been steadily on the increase while on the other hand there has been a steady decrease in the land under cultivation for forty years.

The sheep and beef industries in the east have practically disappeared and dairying was decreasing rapidly. This he said, was the cause of the increased cost of living. The only salvation for the east was in the development of agriculture.

He explained the work of the Industrial Exposition. The Exposition will cover 120 acres of ground and the buildings will be on permanent construction. He told of a ten-day campaign conducted in Springfield by business men which succeeded in raising \$25,000.

The Boys' and Girls' Club Work will be a prominent feature of the exposition.

## SAGE TEA DARKENS HAIR TO ANY SHADE

Don't stay gray! Here's a simple recipe that anybody can apply with a hair brush.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is messy and out-of-date. Nowadays, by asking any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire a more youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Schiller, the lone pirate, who single-handed, captured the British freighter Matopoli and her crew of fifty-seven, told to the New York authorities, corresponds to that which he told to people here. One man here who made Hudson's acquaintance while he worked here claims that Hudson told him that he was the son of an Englishman and his mother was a German. He claimed he was born in Russia, where he obtained a knowledge of that language. He left Russia at an early age and settled with his mother in Germany. From there he went to England and at the outbreak of the war he sailed from there to Boston. He came from Boston to Plainfield, according to his story. Hudson was a fine piano player and while here he greatly amused a number of young men by his playing.
